

## Datasheet for HHL-410

### Recommendations:

Please read the User Manual and have a look at the FAQ at  
<http://www.alpeslasers.ch/?a=142>

**WARNING:** Operating the laser with longer pulses, higher repetition rate, higher voltage or higher current than specified in this document may cause damage. It will result in loss of warranty, unless agreed upon with Alpes Lasers!

**WARNING:** Beware on the polarity of the laser. This laser has to be powered with negative bias on the pin 7 and positive bias on the pin 4.

**WARNING:** Avoid bending module by applying too much torque on mounting screws. Keep temperature change rates below 10 degrees per minute.
